SARDOC Coordinator

Subject: SARDOC Search Dog Availability

Search & Rescue Dogs of Colorado (SARDOC) has supplied operational search dog teams to law enforcement agencies and SAR teams in Colorado since its inception in 1983. All of our dog handlers are volunteers and we do not charge for our services. SARDOC dog teams are available 24/7, 365 days a year.

SARDOC trains, tests and certifies dog teams in various disciplines such as Area or Air Scent Search, Trailing, Water, Avalanche and Cadaver. Our Standards meet or exceed those considered to be national standards. Please visit our website at www.SARDOC.org to review our Standards if you'd like. We currently have 17 operational teams across the state. Those teams responded to over 60 requests for assistance in 2010 and were responsible for the missing or lost subject being found in numerous cases.

If you or your Search and Rescue Coordinator have any questions about SARDOC resources or what might be best for a particular search situation, please feel free to contact me at 970-576-0873 or email me at robinanderson@q.com. If I am not available, please leave all of your contact information and I will return your call as soon as possible.

***** To request SARDOC dog teams, please call 970-416-1985 (Larimer County SO Dispatch). Tell the SO dispatcher that you need search dogs and request that the SARDOC dog dispatcher contact you immediately.**

Please share this information with your Communications Section/Dispatch Center and SAR Coordinator.

We look forward to working with you.

Robin Anderson
